# ANNUAL REPORT 2022

# Overview

Kumi Hospital Orthopaedic Workshop provides a variety of services to the population of the Teso region and far beyond, making it an essential place for rehabilitation in Eastern Uganda. 80% of people with disabilities who come to our Orthopaedic workshop cannot afford the cost of our services, even after the cost has been subsidized.

This is attributed to the high level of poverty in the region. Most of the patients we serve are not only for assistive devices and orthotics (AFOs, KAFOs, crutches, among others), but we also offer lower limb prostheses (artificial limbs).

Due to the growing need for rehabilitation care, there is a need to provide the Orthopaedic workshop with a constant supply of materials in order to meet the increasing demand for our aids.

We take our customers' need as a priority and serve them with diligence and professionalism with observance on quality assurance of our services.

Twongeirwe Benjamin  
Orthopaedic Technologist

**I am passionate to serve people with neuromusculoskeletal disorders so that they become acceptable and productive in the society.**

# OUR ORTHOPEDIC WORKSHOP DONORS

We would like to thank all our donors; without their continuous support we would not be able to achieve our mission and goals to ensure that people with physical disabilities develop their full potential in an inclusive society. Our main donors for the past years are listed below, but we would also like to thank all of the individuals and institutions in the field that are not mentioned on this page.

Christian Blind Mission

Rotary Jaipur Limb UK

Child Care Africa

Swiss Limb

Kumi Child Development Center

Wheels for the World

Joint Medical Stores

Uganda Protestant Medical Bureau

Kumi Community Foundation UK

Ugandan Institute of Allied Health and Management Sciences - Mulago

German Leprosy and Tuberculosis Relief Association

Rotary Club of Godalming

St Joseph Rehabilitation Centre - Soroti

Kumi Foundation NL

# Kumi Hospital

## We treat and God heals

Established in 1929 as a leprosy centre to help people with leprosy in the eastern and northern regions of Uganda and South Sudan.

Kumi Hospital (KH) currently has a reach of approximately 4 million people. Kumi Hospital is a member of the Uganda Protestant Medical Bureau (UPMB); it is therefore a private non-profit (PNFP) institution.

The hospital is a registered entity and accredited by the Ministry of Health (MoH). Since its foundation in 1929, Kumi Hospital has undergone a transformation from a center for the disabled to a general hospital. Since then, it has significantly expanded its activities to challenges and adapted its working methods to the situation. Kumi Hospital has been involved in the needs of community health care for 94 years.
